29 March 2014

Dear Parent

Soccer School

You will now know that spring is here and that we have gone through the Winter period. We at the club recognise that and our winter indoor soccer school had their last session at Perth High School today Saturday 29th, March 2014.

We are pleased to tell you that from next Saturday 5th, April we will commence our Spring programme at our home ground Seven Acres Park, Newhouse Road, Letham. Now you will be coached outside on grass. We suggest you wear warm clothes, wear football boots, wear shin pads and bring a drink. Cost is still only £2 and the times are the same. Primaries 1 and 2 at 10.00am and Primary 3 at 11.00a.m.

All the usual coaches will be there and we suggest come early as car parking can be difficult as the usual parking space at the clubhouse fills up easily especially if there are matches taking place at the same time.

You have read in the press that we will be building a brand new state of the art all weather pitch at Seven Acres and this will commence mid-April. However when finished you will be able to play on this facility whenever possible.

By this change we hope you can associate yourself of being part of the biggest club in the East of Scotland and in time be proud to be a Tangerine or Tangie like thousands of boys and girls before you. I look forward to seeing you there on Saturday. If having difficulties of finding us you can get directions from our web site www.lethamfc.com in the section-about us.

Ken Drummond
President
